

Angekis®

ANGEKIS CLEAR TALK ASP-04 WIRELESS SPEAKERPHONE

The Angekis Clear talk ASP-04 is the perfect portable and wireless USB microphone for video conferencing complete with a charging dock for wireless charging. With a full-duplex Omni directional microphone the Clear talk ASP-04 utilizes a direct 2.4GHz wireless USB receiver meaning **no more work pairing Bluetooth devices with a low quality audio connection!** Its so easy to use, simply turn on the speakerphone and plug in the wireless USB receiver. No pairing! It streams crystal clear audio, connecting to a wireless USB dongle with a 30' range over 2.4 GHz (**Up to 10 times more bandwidth than Bluetooth!**)

Features:

- 360° sound via 3 inbuilt digital microphones with excellent pickup from up to 3 metres in all directions (6m circumference)
- Built-in high-powered speakers
- Built in echo cancellation and strong anti-interference ability.
- Intelligent Tuning Band
- Dynamic Noise Control (DNC) technology.
- Wireless charging by simply placing it on the charging dock between uses.
- Plug and play, no drivers required.
- Compatible and optimized for Windows Operating Systems
