ETX-6510UHD e-Screen

black

- The ETX range displays offers razor sharp, high quality images in Ultra-HD
- The build-in Automatic Brightness Sensor guarantees an optimal picture under all light circumstances and significantly reduces energy consumption
- The anti-glare coated glass guarantees perfect readability and a comfortable touch experience
- The High Precision Advanced Infra-red touch screen technology can detect objects as small as 3mm. This allows for very precise drawing and annotating.
- Multi-touch with up to 32 simultaneous touches for multi user requirements (Windows 7, 8, 8.1 and 10)
- Easy to set up, plug and play functionality for Windows
- The all metal housing with brushed aluminium front and rounded corners make the ETX screen the perfect solution for demanding environments such as schools
- Now with a special slot that can hold either a very powerful Android controller or an expansion slot that adds an extra HDMI 2.0 and USB port
- Easily operate and control the screen through the Touch On-Screen Display function. The most essential features can also be controlled with the control buttons on the left side of the screen
- The slot-in option allows for easy upgrading the Android controller over time
