Slim Design

UM5J offers a slim design for a seamless interior, ideal for a closer wall installation. It enhances the immersive experience and adds sophistication to the overall design.

Super High Resolution

Delivering immersive viewing experience by 4 times higher definition picture quality than FHD.

Built-in Speaker

Contents will be enriched with sound effects from built-in speakers, without the need for purchasing or installing external speakers.

* Internal Built-in Speaker Support (L/R max 10 W)

High Brightness

With a great brightness of 500 cd/m², UM5J series clearly deliver content and attract public attention, which is the ultimate display for market of retail, cooperate etc.

Compatible with webOS Box (WP402)

UM5J is compatible with the webOS Box WP402 and it supports LG SuperSign Solutions when used in conjunction with the box, making content creation and distribution easier. Furthermore, thanks to its compatibility with WP402, UM5J enables display power on/off control through an HDMI-OUT port when connected to the WP402.

- * Some of WP402 features may NOT be available with UM5J products.
e.g.) Product monitoring-related functions such as DPM, SuperSign Control+, and Control manager
- * HDMI-CEC function is only available when connected to the WP402 product, and the supported feature is limited to power on/off control.

CONNECTIVITY

110" / 98"
