

65" Interactive Display
SDX 65

Specktron Interactive displays deliver a truly immersive and reliable experience for venues including meeting rooms and classrooms. Complemented with fully featured interactive software for both Windows and Android. With Toughened anti-glare glass and a metal chassis, the display will stand up to the toughest treatment. An embedded version of Android is included, to allow for standalone use. An optional integrated PC delivers full Windows functionality in a discrete package. Delivered complete with a flat wall mount, the standard VESA pattern enables compatibility with a wide variety of mounting solutions.
