ViewSonic®

VA705-LED-S

Key **Features**

17" 5:4 LED backlit monitor **|** 1280x1024 native resolution **|** LED backlight for energy savings

Product **Description**

ViewSonic's 17" LED display, the VA705-LED, is a professionally built monitor for government and corporate applications while featuring a small size and a SXGA 1280 x 1024 resolution allowing for a more pleasant and efficient working environment. This ENERGY STAR® certified display comes equipped with a long-lasting and highly efficient power-saving LED backlight as well as ViewSonic's exclusive Eco-mode that reduces power consumption based on different lighting environment and minimizes maintenance effort and costs. Embedded dynamic contrast ratio technology not only enhances the dark and bright contrast of images but helps to produce an ultrahigh 10,000,000:1 ratio to deliver perfect image performance. Built-in sRGB color correction technology ensures accurate image color for consistent color performance for professional presentations, photographs, graphic design and printing. The VA705-LED provides an eco-friendly solution for office applications and enormously boosts work efficiencies.
